

Crowdfunder Branded Platform

Launch your own branded crowdfunding platform
powered by our world-class crowdfunding technology

What is a Crowdfunder Branded Platform?

If you want to launch a crowdfunding platform for your university, council, business or organisation then the Crowdfunder Branded Platform is for you.

The Crowdfunder Branded Platform gives you the ability to quickly launch a dedicated crowdfunding platform with your branding and messages - but with all the benefits and unique technology of our Crowdfunder platform. The great thing about our mini-site platform is it puts you in charge of your own crowdfunding platform and allows you to run your own campaigns - with our advice and experience of what really works.

What the product includes

- Fully branded experience for your community, customers or users
- A bespoke, designed front-end web platform that meets your objectives
- Full distribution through our Crowdfunder marketing channels and partner channels if required
- Your logo next to our logo on the platform gives quality assurance
- Crowdfunder Academy Guides for project owners to build the best possible crowdfunding campaigns for their projects
- Crowdfunder Workshops offering group coaching
- 50 hours of telephone coaching support for your projects during their crowdfunding experience
- Your own admin 'Dashboard' panels to help you approve projects and add match funding

Your Platform

Fully branded front end

Your platform will deliver a branded crowdfunding experience for your community, user and customers, with the reassurance of our Crowdfunder technology behind it.

Dashboard

Your own easy-to-use 'Dashboard' admin panel puts you in charge, helping you monitor progress, approve projects and add match funding
