

Cornwall Pasta Co. Community Charter

As a family we have always made an effort to be environmentally conscious, charitable and have a healthy and active lifestyle. As a company we want to promote these values further. As part of our business structure we decided to put together this Community Charter to state key policies that we promise to fulfil. We will keep you updated as to how we maintaining these policies:

- We will recycle all packaging, plastic and bottles
- We will use biodegradable packaging wherever possible and try to cut down the amount packaging from suppliers.
- We will keep food waste to absolute minimum by ordering levels of food that are needed and donating all edible perishable foods to Homeless Centres and Soup Kitchens
- We intend to use local suppliers wherever possible to keep our carbon footprint low
- We will always use fresh, natural, healthy ingredients in all our dishes and will never add unnecessary salt or fat
- Our Prices will always be competitive and fair
- We will always make an effort to respond and adapt to customers needs and requests

This policy list may grow in the future as we start to trade and expand and realise further ways in which we can be more responsible and effective to our communities and environment.
