## Aeronautical Engineering and Aviation Operations

I just wanted to thank you for organising such a wonderful work experience placement, it was honestly such a valuable opportunity to be able to be immersed in that working environment with such welcoming people.

Thianna-May Campbell

The week was jam packed, there wasn't a dull moment. I changed the nose cowl and igniter on an A330, and then I changed the ozone converter and radio altimeter on a 737 and ran tests. I also helped with preparation for an engine change on a 737 and I changed engine filters. My practical skills have improved majorly!

Oh, and I even met Alice Goodwin. Such a funny little coincidence! But it certainly goes to show the influence and extent of the Fantasy Wings programme. I really can't thank you enough! I am so grateful Jackson, thank you. I've attached some photos, if you want to have a look.

Thank you so much.

## Ryanair UK – Pilot

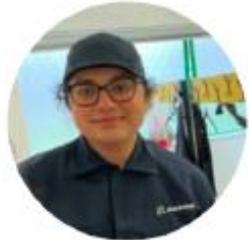

I just wanted to drop you a real quick email just to once again thank the Fantasy Wings Team for all the support you gave me and to let you know I have just finished my training/ type rating with Ryanair UK and I am now a second officer on the 737-800 & MAX.

It really meant a lot to me the support, knowledge and motivation the team gave me on my journey especially following the unfortunately racism I experienced at the start of my aviation journey, but got there in the end.

So a massive thank you to yourself and the team, if there is anything I can do to promote you guys or help inspire others with my story please to not hesitate to contact me.

Best wishes
